Boston Journal.—The "muzzling" of the Democratic press by the appointment of Democratic editors to office goes mer-rity on, and so far as is apparent the edi-tors rather like it. At least they have ceased to print articles against "subsi-dizing the press".

REFUBLIANC CAMPAIONNO.

New York Press.—For every dollar of
National revenue raised by a Democratic
income tax the Republican party, which
believes in parity the expenses of the
Government by a Protective system
which increases the incomes of workingmeu, will gain a vote.

Milicauke Tribuns.—The late Demo-cratic Logislature of New York appro-ported over \$1,800,000 and raked the tax rate from 1.98 to 2.38 mills. New York is to have a state election in the fall, and if the people don't rise in their wrath and cast Tammany into the sea they deserve to be taxed to death.

A MUNICIPA ADMISSION.
Bosho Merald.—By our measurement Mr. Carlisle, whom we willingly credit with the her latentions, has neither the training nor the best of mind to cope with the grave legislative and financial problems which confront him. Though these problems call imperatively for the promptest possible solution it is plain that he shrinks from grappiling with them. +

ENGLAND TO BE RECOUPED.

New York Press.—The London Post of May 18th contains a pointed article on the financial and business situation, Rustrating how Ragiand expects, as a matter of course, to be recouped through the repeal of the American Protective Tariff for her recent tremendous losses in money and trade. The Post states.

Day after day there has been a steaty. And in many cases values have shriveded up into an exceptionally small compass. After tracing the silegent causes of England's financial calamities to South Africa, Australia and finally to America, The Post adds that—From all this see are bound to suffer, nor soil a reduction in the Tariff, which may form, offend for some time defigurate compensation.

That is, one of the most intelligent of That is, one of the most intelligent of English newspayes considers that the reduction of the American Tariff, to be expected under Clevehand's Administra-tion, will not for some time adequately compensate England for her recent enor-mous losses, amounting in the case of Anstralia alone to many millions of doi-lars. Of course if England is to be com-pensated for these losses the compensa-tion must come from somewhere, and the somewhere is the wages of the American workingmas and the carnings of Amerisomewhere is the wages of the American workingman and the carnings of Ameri-can industries. EDWARD ATKINSON, though a Freetrader, is too honest a man and too
thoroughly conversant with the statisties of this country's wonderful growth
under Protection to subscribe to the absurd falsehoods by which the last election was won. Of these no single one
has been used to greater advantage in
the agricultural states by Democratic
demagogues than the alleged impoverishment of Western farmers by Protection. So important to their success did
the Democratic leaders consider the
assiduous dissemination of this faisehood that they gave it a prominent
place in their National platform.
Mr. Atfinson has of iate been examining the census statistics of farm
mortgages, collected as he assures us by
"two of the most thoroughly competent
men in the country." How radically
his conclusions differ from the demagogic utterances of the Democratic platform will best be shown in this paraile!
